Dear Jaspreet Singh Sodhi,

I am pleased to offer you the position of Deep Learning Intern for the project sponsored by Manupatra Information Systems. You will join our team and will work on the project "**Legal contextual searching**" funded by Manupatra Information Systems at Bennett University.

Your responsibilities, not limited to, are as follows:

• Developing and implementing machine learning models to identify patterns in the legal data.
• Designing, coding, and testing software to support deep-learning applications
• Working with the legal team to improve the accuracy and efficiency of algorithms.
• Collaborating with other departments to ensure that the deep learning models are implemented effectively.
• Research paper writing and guiding First/Second/Third Year students in their work.
• Help the PI in conducting legal analytics-based workshops.
• Helping the office of the Chief Product Officer.

You will receive a competitive compensation package of Rs. 10,000 including all benefits.

I look forward to you joining our team and helping us develop innovative solutions.

Sincerely,

Dr. Tanveer Ahmed
Associate Professor,
School of Computer Science and Engineering Technology,
Chief Product Officer
Principal Investigator (for Manupatra Information Systems)
Greater Noida, UP
